ON THE JOB SINCE 1893

Partnering with Distributors

Est. 1893

In 1887, a farmer living in Kewanee, Illinois invented a unique corn husking tool. He named that tool, which was a husking pin, the Perkins Boss Husker.

In 1893 the Perkins Husker Company was reorganized and emerged as Boss Manufacturing Company. The new company conceived the idea of manufacturing work gloves by taking note of the apparent needs of farmers in the Kewanee area. It was common practice in the early 1890's for farmers' wives to purchase cloth goods and make work mittens for their husbands. The Boss story from that point on is one of continued growth and sustained success as a leader in the glove industry.

Today, the Company's headquarters are still in Kewanee with distribution centers and sales personnel located throughout the United States and Canada. Boss has kept up with emerging technology and sophisticated distribution techniques to meet the needs of a complex and ever changing marketplace.

Through all of the changes one thing remains true, our unyielding commitment to provide quality products at competitive prices. Our number one priority is complete customer satisfaction.

Chore
